

Technology Workshop

Technology Workshop was held on 17th March 2020 at Sri Kumaraswara College of Education. Resource persons were Deshpande Sir, Santosh Waddar Sir NCJC High School Honegal. Dr. Sadashivappa, a pastor of the workshop, was present at the workshop. Viraktamath, Raju.H, and Manjappa Persikya were present. First-year students participated in the technology workshop. Technology Workshop Coordinator Raghavendra Modalli, an assistant professor at our college,

Students were told the main purpose and significance of this workshop. They were educated in practice, informed on how to adopt technology in teaching and everyday life in today's technological age and modernity. Student viewing video is learning to be permanent and effective, so it is very simple and very smart to show the best videos on PPT and content, how to open a website in the classroom, and how to incorporate it into everyday life. Students can be informed of new innovations in technology and learn from it quickly. Students can convey more content in less time. Resource persons pointed out that some of the instrumentals for class termination could be found in technology that we did not have.

Together, this workshop learned how useful teaching and real life can be in today's technology age.
